

you need:

- counters
- 20 cubes or beans

Make 10 for 2 players

Round 1

Take turns to put a counter on one of the squares.

If you finish a line of three counters where the numbers total 10, you win a cube.

Take those three counters off.

Whoever won the cube starts the next round.

The end of the game

The winner is the first person to collect 10 cubes.

Sample game

Lily put a counter on 3 and finished a line.

$$2 + 5 + 3 = 10$$

She took the counters off 2, 5 and 3 and won a cube.

1	1	5	4	1
7	2	2	5	3
2	5	3	2	6
7	3	5	2	2
1	2	2	6	2

1	1	5	4	1
7	2	2	5	3
2	5	3	2	6
7	3	5	2	2
1	2	2	6	2
